<sup>1</sup>Total number of points of all questions minus points for questions answered with NA.

<sup>2</sup>No Stars < 55%

1 Star 55% - 64%

2 Stars 65% - 74%

3 Stars 75% - 84%

4 Stars 85% - 94%

5 Stars ≥95%

## A. General Information

|   |       |      |       |
|---|-------|------|-------|
| Name of assessor(s)                                       |       |      |       |
| Title & organization of assessor                          |       |      |       |
| Name of laboratory being assessed                         |       |      |       |
| Date type and score of last assessment?                   | Date  | Type | Score |
| Internal  |       |      |       |
| External  |       |      |       |
| Did the last assessment include assessment of TB Culture? | Y / N |      |       |

## B. Technical Information

CA. How many tests performed last year?

|                                   | Q1 | Q2 | Q3 | Q4 | Total |
|-----------------------------------|----|----|----|----|-------|
| <b>Number of samples rejected</b> |    |    |    |    |       |
| <b>Solid Culture</b>              |    |    |    |    |       |
| Positive MTB                      |    |    |    |    |       |
| Positive NTM                      |    |    |    |    |       |
| Negative                          |    |    |    |    |       |
| Contaminated                      |    |    |    |    |       |
| Mix culture (NTM & TB)            |    |    |    |    |       |
| <b>Sub-Total</b>                  |    |    |    |    |       |
| <b>Liquid Culture</b>             |    |    |    |    |       |
| Positive MTB                      |    |    |    |    |       |
| Positive NTM                      |    |    |    |    |       |
| Negative                          |    |    |    |    |       |
| Contaminated                      |    |    |    |    |       |
| <b>Sub-Total</b>                  |    |    |    |    |       |
| <b>Total</b>                      |    |    |    |    |       |

MTB = Mycobacterium tuberculosis Complex

NTM = Non-tuberculosis mycobacteria

Q = Quarter

# Section 1: Documents & Records

All generic requirements apply, see SLIPTA Section 1. In addition to the General Procedures (Section 1), assessors should review the following:

| SLIPTA   |      |   | NA | Y | P | N | Comments | Score    |
|--|------|---|----|---|---|---|----------|----------|
| 1.5  | C1.1 | Does the laboratory have documentation covering the following processes?  |    |   |   |   |          | 3        |
|  |      | 1. Preparation of media for solid culture and or QC on solid & liquid media   |    |   |   |   |          |          |
|  |      | 2. Sample collection and transport  |    |   |   |   |          |          |
|  |      | 3. Processing of pulmonary samples and conducting TB culture including decontamination and inoculation of media               |    |   |   |   |          |          |
|  |      | 4. Processing of extra-pulmonary samples and conducting TB culture including decontamination and inoculation of media         |    |   |   |   |          |          |
|  |      | 5. Identification of MTB from positive cultures   |    |   |   |   |          |          |
|  |      | 6. Recording & reporting TB culture and MTB identification test results   |    |   |   |   |          |          |
|  |      | 7. Quality control procedures for TB culture  |    |   |   |   |          |          |
|  |      | 8. Interlaboratory comparison, retesting or proficiency testing (PT) for all TB tests   |    |   |   |   |          |          |
|  |      | 9. Laboratory safety related to TB testing  |    |   |   |   |          |          |
| 1.5  | C1.2 | Are the documents complete, in-date and witnessed by all staff performing TB culture and identification of MTB <sup>3</sup> ? |    |   |   |   |          | 2        |
| <b>Section 1: Documents &amp; Records Subtotal</b> |      |   |    |   |   |   |          | <b>5</b> |

<sup>3</sup>See ISO15189:2012 Clause 5.5.3 for minimum requirements for a technical Standard Operating Procedure (SOP).

## Section 2: Management Reviews

All generic requirements apply, see SLIPTA Section 2. In addition, assessors should review the General Procedures (Section 2).

## Section 3: Organization & Personnel

All generic requirements apply, see SLIPTA Section 3. In addition, assessors should review the General Procedures (Section 3).

## Section 4: Client Management & Customer Service

All generic requirements apply, see SLIPTA Section 4. In addition, assessors should review the General Procedures (Section 4).

| SLIPTA  |      |  | NA | Y | P | N | Comments | Score    |
|---|------|--|----|---|---|---|----------|----------|
| 4.1   | C4.1 | Is there evidence that the laboratory has provided clients information / instructions on interpretation of culture test results? |    |   |   |   |          | 2        |
| <b>Section 4: Client Management &amp; Customer Service Subtotal</b> |      |  |    |   |   |   |          | <b>2</b> |

## Section 5: Equipment

All generic requirements apply, see SLIPTA Section 5. In addition, assessors should review the General Procedures (Section 5).

## Section 6: Evaluation and Audits

All generic requirements apply, see SLIPTA Section 6. In addition, assessors should review the General Procedures (Section 6).

## Section 7: Purchasing & Inventory

All generic requirements apply, see SLIPTA Section 7. In addition to the General Procedures (Section 7), assessors should review the following:

| SLIPTA  |      |  | NA | Y | P | N | Comments | Score    |
|---|------|--|----|---|---|---|----------|----------|
| 7.10  | C7.1 | Are all media and consumables for TB culture and MTB identification testing stored at the correct temperature and in date <sup>4</sup> ? |    |   |   |   |          | 2        |
|   |      | - Liquid media   |    |   |   |   |          |          |
|   |      | - Solid media  |    |   |   |   |          |          |
|   |      | - MTB identification tests   |    |   |   |   |          |          |
| <b>Section 7: Purchasing &amp; Inventory Subtotal</b> |      |  |    |   |   |   |          | <b>2</b> |

<sup>4</sup>According to manufacturer's requirements.

## Section 8: Process Control

All generic requirements apply, see SLIPTA Section 8. In addition to the General Procedures (Section 8), assessors should review the following:

| SLIPTA                 |      |  | NA | Y | P | N | Comments | Score |
|------------------------|------|--|----|---|---|---|----------|-------|
| <b>Quality Control</b> |      |  |    |   |   |   |          |       |
| 8.8                    | C8.1 | Does the laboratory perform QC testing on all media before use <sup>5</sup> ?  |    |   |   |   |          | 3     |
|                        |      | Do QC records for liquid culture media demonstrate their ability to support growth of MTB?                                 |    |   |   |   |          |       |
|                        |      | Do QC records for solid culture media demonstrate their ability to support growth of MTB?                                  |    |   |   |   |          |       |
|                        |      | Do QC records for solid culture media demonstrate their sterility?   |    |   |   |   |          |       |
|                        |      | Do QC records for decontamination reagents demonstrate that they are sterile?  |    |   |   |   |          |       |
|                        |      | Do QC records for MTB identification tests indicate their ability to identify MTB from NTM?                                |    |   |   |   |          |       |
| 8.10                   | C8.2 | Does the laboratory:   |    |   |   |   |          | 3     |
|                        |      | 1. Perform sterility and performance tests for every batch of culture media using certified reference strains as controls? |    |   |   |   |          |       |
|                        |      | 2. Are reference strains (MTB H37Rv) sourced from an authorized supplier?  |    |   |   |   |          |       |
|                        |      | 3. Are the reference strains stored, cultured and sub-cultured in accordance with the appropriate guidelines?              |    |   |   |   |          |       |
| 8.10                   | C8.3 | Does laboratory record all samples in batches along with controls on a processing worksheet?                               |    |   |   |   |          | 2     |

<sup>5</sup>This includes in-house made or purchased from commercial sources.

## Section 9: Information Management

All generic requirements apply, see SLIPTA Section 9. In addition, assessors should review the General Procedures (Section 9).

## Section 10: Identification of Non-conformities, Corrective and Preventive Actions

All generic requirements apply, see SLIPTA Section 10. In addition, assessors should review the General Procedures (Section 10).

## Section 11: Occurrence/Incident Management & Process Improvement

All generic requirements apply, see SLIPTA Section 11. In addition to the General Procedures (Section 11), assessors should review the following:

| SLIPTA   |       |  | NA | Y | P | N | Comments | Score    |
|--|-------|--|----|---|---|---|----------|----------|
| 11.4 / 11.5  | C11.1 | Are the following performance indicators collected?  |    |   |   |   |          | 5        |
|  |       | 1. Number of TB cultures performed (disaggregated by type)?  |    |   |   |   |          |          |
|  |       | 2. Number and proportion of positive, negative and contaminated / mixed TB cultures (disaggregated by type)? |    |   |   |   |          |          |
|  |       | 3. Number and proportion of MTB and NTM isolated (disaggregated by type)?                                    |    |   |   |   |          |          |
|  |       | 4. Number and proportion of MTB and NTM isolated (disaggregated by patient group)?                           |    |   |   |   |          |          |
|  |       | 5. Liquid and/or solid culture TAT <sup>6</sup>  |    |   |   |   |          |          |
| <b>Section 11: Occurrence/Incident Management &amp; Process Improvement Subtotal</b> |       |  |    |   |   |   |          | <b>5</b> |

## Section 12: Facilities and Biosafety

All generic requirements apply, see SLIPTA Section 12. In addition, assessors should review the General Procedures (Section 12).
