# GLOBAL DRUG FACILITY MEDICINES CATALOG OCTOBER 2019

As a unit of the Stop TB Partnership, GDF provides a range of quality-assured medicines and medical supplies to treat all forms of TB in adults, adolescents and children. This catalog is categorized by products used to treat adults and adolescents as well as children. Each section is subdivided into single medicines and fixed-dose combinations, in alphabetical order by the description. Each product is marked for its intended use, as recommended by WHO, i.e. to treat drug-sensitive TB, drug-resistant TB and/or latent TB infections.

To place an order for any medicine or medical supply, please follow the step-by-step guide available on the GDF website. All prices in this catalogue are listed as ex-works (EXW) prices.
